

Brand new range of Panel Fasteners

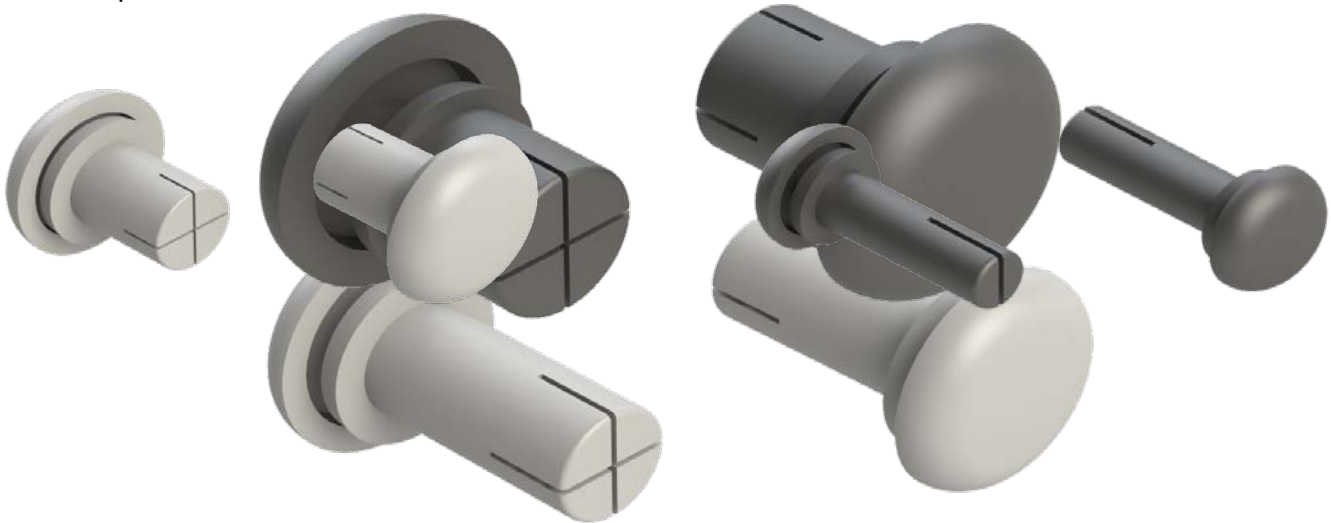

Push Snap Rivets:

GBK is pleased to announce a new range of panel fasteners, known as Snap or Push Rivets.

Made from PA6 (nylon 6) in two individual parts & then assembled to offer a re-usable rivet system, which has an extremely clean top surface, making them ideal for aesthetic purposes or applications.

With 46 standard part numbers available in either BLACK or WHITE and a hole size range from 2.1mm to 6.1mm with a wide selection of panel ranges, added to grip forces of between 3 & 30KG these highly versatile parts will be of interest to all key assembly & production markets.

Traditionally this type of product has been widely used in the electronics industry, where the key benefits outlined above are of particular interest and use.

Please contact the sales office for further information or sample requests.
