

New Rotary Slide Damper

New Rotary Slide Damper

GBK is pleased to announce a new Rotary Slide Damper which adds to the existing product line.

Rotary Slide Damper - 44009
Range of torques from 0.80Ncm thru
to 1.80Ncm full details & tolerances
available on request

This new damper development has mounting options for use in drawer slides or mounting in a traditional way for either door, drawer or panel use.

This item can also be supplied without the gearwheel if desirable. Offering customers options for packaging is of the highest priority for GBK & will continue to be so.

GBK continue to improve & define the Motion Control & Panel Access product groups, further new product developments will be made during 2015.

Please contact the sales office for further information or sample requests.

Talk to GBK about your fastening, fixing and component needs and discover why GBK ship product globally and solve problems daily.

Date: January 2015
