

New Product Development in for Panel Access

New Mini Push Latch & Latch + Strike product releases:

41033 - Mini Push Latch: Designed to fit a panel hole of 7mm x 7mm with a panel thickness of 2mm, this new product offers even smaller packaging when compared to the Standard Push Latch 41001, but with all the design features of the larger standard item.

Available in BLACK & WHITE as standard

41034 & 41035 Latch & Strike: With high level detailing, this is a "top of the range" panel access latch solution, providing users with a premium finish to their storage needs. Incorporating a spring clip within the female element, this latch gives a very positive lock with a pull out force of approx. 10N.

Available in BLACK as standard (other colours subject to minimum production run requirements)
