

Scrivets - User guide

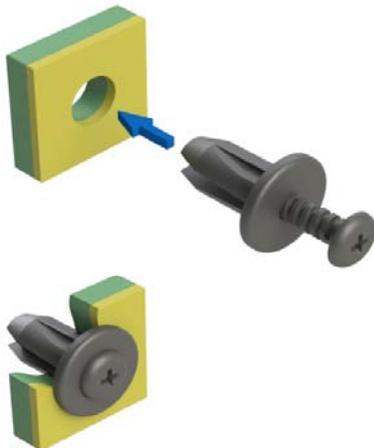

**Versatile Panel Access Fasteners:**

Scrivets are an amalgamation of the words "screw" & "rivets" as they exhibit some similar attributes to those products, but with added features & benefits.

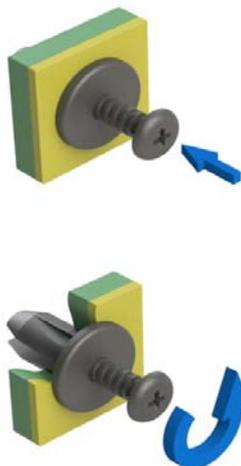

Used in many market sectors, particularly Automotive they are recognised as having strong grip characteristics, a wide range of hole & panel options, but crucially being very quick to install & are re-usable.

GBK is developing user guides for its entire product range & in the first instance we are looking at Scrivets.

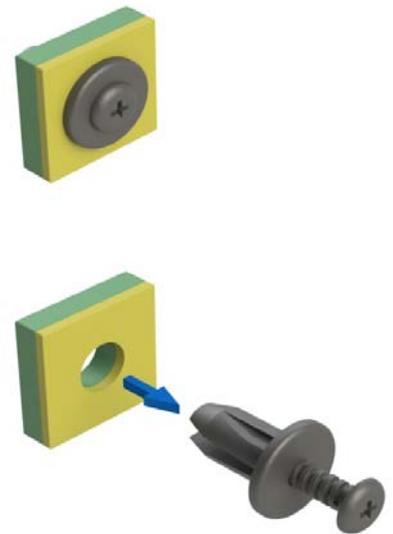

Insert fastener to prepared hole

Drive pin into body with mallet

Fastener in-situ (pin driven)

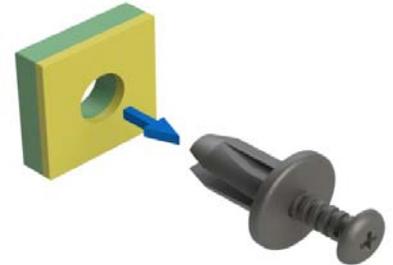

Fastener in-situ (cutaway view)

Unscrew pin to start position

Fastener ready for re-using

Talk to GBK about your fastening, fixing and component needs and discover why GBK ship product globally and solve problems daily.
