

First & Business Class Travel Solution & ISO 9001:2008 update

High Flyers benefit from GBK fastening solution:

An existing customer of GBK asked for assistance in designing new fasteners for securing First & Business Class airline cabin beds, as none of the standard items were ideal.

The initial solution required a specialist Pine Tree Clip with very fine fin designs & the second project was a very similar part, but shorter with a locating spigot added on the top surface of the pine tree's head to facilitate assembly.

This type of assembly solution has been used in automotive solutions provided by GBK, but this was the first instance in the aerospace market sector.

Pine Tree Clip 47159
Nylon 66 (PA66)
18.0mm head dia 0.9mm thick
4.8mm hole mounting
0.7 - 7.0mm panel range

Pine Tree Clip 47208
Nylon 66 (PA66)
18.0mm head dia 0.9mm thick
4.8mm hole mounting
0.7 - 4.5mm panel range

GBK was happy to have confirmation of continued compliance to the ISO 9001:2008 standard as verified during the annual audit held on May 26th. GBK are approved via TÜV as certified by UKAS to carry out such approvals & maintenance of quality systems.
