

## COVID-19 Update & New Website launch

### COVID-19 Update April 2020:

Inline with direct Government advise GBK UK Limited remains & will remain open until we are instructed to close by the Westminster Government. Wherever possible employees who are able to work from home are doing so & have been since March 17th

Our supply chain is robust & we do not foresee any weaknesses, however lead-times are adversely affected for goods not in stock, please ensure that adequate time is allowed for your requirements during this difficult time.

We are maintaining working hours of 09:00 - 16:00 each day, with a slightly earlier finish on Fridays @ 15:00. We are here, open, ready, willing and able to help you with your fastening and component needs.

### New Website Launch April 2020:

Slightly unconventionally we are choosing to launch our new website during this period, however, this will allow us to refine the site whilst live, ensuring that we have it working faultlessly ready for when businesses need to access our products and data.

Initially there will be missing CAD files for customers to view, but this will quickly be addressed, live stock figures will be updated as a matter of urgency directly after launch. Product images will be updated as quickly as possible after launch.

We believe the new platform is a significant upgrade on the current E-Commerce site and the new product ranges will prove popular with our customer base.

Talk to GBK about your fastening, fixing and component needs and discover why GBK ship product globally and solve problems daily.
